Doors

All of our uPVC door styles are completely bespoke and made to measure. The images to the left show just some of the many styles available.

Whether it be a new back door or a statement front door, a uPVC door will suit your needs.

- Flexible design—made to suit your preferences
- A range of colours, glass and furniture available
- Robust construction with high security locking
- Fully adjustable hinges - open in or open out
- Available with a sculpted or bevelled profile and bead

The images above are just some examples of the many uPVC door styles available. Please ask for more information

French/Casement Window

Tilt & Turn Window

Casement Windows

Like our doors, all of our uPVC casement windows are completely bespoke and made to measure. The images to the left show just some of the many styles available—all design to comply with building regulations.

Casement windows all open outwards and have the option of fixed panes and openers. Tilt & turn windows open inwards.

- High security and ‘A rated’ with toughened glass
- Reinforced to the manufacturer’s recommendation
- Available with a sculpted or bevelled profile and bead
- Austenitic, easy clean hinges
- Standard casements, flush casements and tilt & turn options available

The images above are just some examples of the many window styles available. Please ask for more information

Colours

All of our uPVC windows and doors are available in a wide range of colours. The images to the left represent the 'standard colours' - other colours available on upon request.

- A range of colours, glass and furniture (see page 9 for more furniture information)
- Choose your dream colour for your whole door or just the opening sash
- Dual foil available (colour inside and outside)
- Choose the perfect furniture to go with your door colour
- All available with clear or obscure (privacy) glass—or even panel (flat or shiplap)

Single Door Variations

As well as standard uPVC doors, we can also do more specialized products and features for your doors which include but are not limited to:

- Side Screens — one or both sides
- Top Lights (arched designs also available)
- Windows coupled to doors
- Stable doors (true stable or tilt & turn stable available)
- Different coloured door frame and sash

French and Patio Doors

If you're looking for a larger opening, how about a sliding patio door or set of French doors?

French Doors:

- Open inwards or outwards (exposed locations may not be suitable for inward opening)
- Available with a sculpted or bevelled profile and bead
- Different furniture and thresholds available

Patio Doors:

- Open from the middle outwards or one side to another
- No obstruction of indoor or outdoor space
- Largest opening possible
